

HEALTHCARE PROFESSIONALS AND PRACTICES

WilkinGuttenplan is committed to fully understanding the issues that our healthcare clients face by remaining up to date on marketplace trends. In doing this, it allows us to provide top-notch expertise to our clients within the medical and dental fields. We can provide accounting, tax, and consulting services that are required to keep their practices on course and help them take full advantage of the options offered by being in private practice.

OUR SERVICES INCLUDE

- Individual, corporate and partnership tax strategies, planning and compliance
- Tax-favored business and transaction structuring
- Cash management and budget analysis
- Real estate related matters

We also offer several business consulting services for physicians, dentists, and other healthcare professionals including:

- Buy/sell agreements
- Consulting related to mergers, acquisitions and valuations of practices
- Financial and operational assessments
- Internal controls review
- Physician compensation planning and analysis
- Retirement plan audits
- Review of fee schedules and coding and billing process review
- Review of new ventures or business initiatives
- Succession and estate planning

INDUSTRY INVOLVEMENT

Beyond knowing your business, we ensure our team is involved in crucial trade organizations to keep on the pulse of the healthcare industry. We are currently members of the following associations:

New Jersey Medical Group Management Association – A professional association providing information, networking, and resources for medical and health care professionals involved in the management of medical practices. Members include practice administrators from medical specialty groups and medical school clinics.

Medical Group Management Association – An association for professional administrators and leaders of medical group practices. They deliver networking, professional education and resources, and political advocacy for medical practice management. Members include administrators, CEOs, physicians in management, board members, office managers, and many other management professionals working in medical practices and ambulatory care organizations of all sizes and types.
