

MATRIMONIAL ACCOUNTING & CONSULTING SERVICES

The WilkinGuttenplan team works with attorneys and their clients to provide them with the expertise necessary to resolve the complex financial and accounting issues that are associated with divorce.

FORENSIC DIVORCE ACCOUNTING SERVICE OFFERINGS

Business Valuation

The value of a business or business interest can significantly impact both the distribution of assets and the determination of potential support. Our experts have specialized knowledge and experience in this area to provide an objective, accurate, and credible valuation.

Lifestyle and Cash Flow Analysis

Alimony/support is a critical component of most matrimonial matters. Understanding the cash flow and standard of living is essential between the parties. Our team carefully analyzes the income and cash flow that creates a consolidated summary that can be used as a basis for critical decisions.

Mediation

Our mediators work with the opposing parties and their counsel to help structure solutions for settlement. This process is often the fastest and most cost-effective route to reaching an agreement.
