

PEER REVIEW

The Peer Review Program enhances the quality of accounting, audit, and attestation services. The American Institute of Certified Public Accountants (AICPA), Peer Review Program, requires that CPA firms with an accounting or audit practice must undergo peer review.

At WilkinGuttenplan, our commitment to quality is evident through passing our peer reviews for over 15 years. As a full-service CPA firm, we provide peer review services for other firms in New Jersey and the tri-state area. Our team's expertise allows us to provide efficient and practical reviews that are designed to improve the client's practice and enhance quality control policies and procedures.

EXPERTISE

Our team at WilkinGuttenplan knows that selecting the right peer reviewer is critical for a firm to realize its full benefits from the review. Also, the reviewer's experience should align with your firm's area of expertise to maximize efficiency and insight. With our expertise, your firm can benefit from our system and engagement reviews.

Our client base includes closely held/middle-market businesses and their owners, high net worth individuals, medical/healthcare practices, not-for-profits, and a multitude of real estate entities. For these clients, we also provide consultation on monitoring and pre-issuance engagement reviews along with services under A-133, HUD, and ERISA. The firm is a member of the Private Company Practice Center of the AIPCA, the AICPA Employee Benefit Audit Quality Center, and the AICPA Government Audit Quality Center.

INDUSTRY INVOLVEMENT

- AICPA Private Company Practice Center – a venue for CPA firms to harness business opportunities and overcome challenges in their firms by providing opportunities and resources that promote professional growth and firm development
- AICPA Employee Benefit Plan Audit Quality Center – a voluntary membership organization designed to promote the quality of employee benefit plan audits. Membership requirements include ongoing training, successful peer review, adherence to quality standards and experience
- AICPA Governmental Audit Quality Center – a voluntary membership organization designed to help CPAs achieve the highest standards in performing quality audits and enhance the quality of governmental audits.
